**UNIVERSITY ADDRESS AND TELEPHONE NUMBER**

University of Arizona  
1131 E. 2<sup>nd</sup> St.  
Tucson, AZ 85721  
Office: 520-626-6460  
Email: darlingwhite@arizona.edu

**CHRONOLOGY OF EDUCATION**

08/2003 – 05/2006   Purdue University: B.S.  
Major: Speech, Language, and Hearing Sciences  
Minor: Psychology

08/2006 – 12/2008   Purdue University: M.S.  
Major: Speech-Language Pathology  
Thesis: Changes to articulatory kinematics in response to loudness cues in individuals with Parkinson's disease  
Thesis Advisor: Jessica E. Huber, Ph.D.

1/2009 – 08/2013   Purdue University: Ph.D.  
Department of Speech, Language, and Hearing Sciences  
Dissertation: Enhancing speech naturalness using respiratory Treatment in Parkinson's disease  
Dissertation Advisor: Jessica E. Huber, Ph.D.

**CLINICAL CERTIFICATION AND LICENSURE**

2010 – present       Certificate of Clinical Competence in Speech-Language Pathology, American Speech-Language-Hearing Association

2010 – 2013         State of Indiana, Speech-Language Pathology

2013 – 2015         State of Wisconsin, Speech-Language Pathology

2015 – present       State of Arizona; Speech-Language Pathology

**CHRONOLOGY OF EMPLOYMENT**

2007-2008           Teaching Assistant, Phonetics, Purdue University

2008-2009           Lab Manager, Speech Physiology Laboratory, Purdue University

2009-2011           Predoctoral Trainee, Department of Speech, Language, Hearing Sciences, Purdue University, National Institutes of Health, T32 DC00030

2009-2013           Senior Graduate Assistant, Speech Physiology Laboratory, Purdue University

2009-2013	Speech-Language Pathologist, Indiana University Health- Arnett Hospital, Lafayette, IN
2013-2015	Speech-Language Pathologist, University of Wisconsin Hospital and Clinics, Madison, WI
2013-2015	Postdoctoral Trainee, Waisman Center, University of Wisconsin-Madison, National Institute of Child Health and Human Development, T32 HD07489
2015-2024	Assistant Professor, University of Arizona, Department of Speech, Language, and Hearing Science
2024-present	Associate Professor, University of Arizona, Department of Speech, Language, and Hearing Science

### **AWARDS AND HONORS**

2005	Students Preparing for Academic and Research Careers (SPARC), American Speech-Language-Hearing Association
2006	Phi Beta Kappa
2006	Outstanding Senior Award, Department of Speech, Language, and Hearing Sciences, Purdue University
2006	Charles C. Chappelle Fellowship, Purdue University Graduate School
2007	Student Research Travel Award, American Speech-Language-Hearing Association
2008	Alumni and Friends Scholarship, Department of Speech, Language, and Hearing Sciences, Purdue University
2010	Wilson Travel Scholarship, Department of Speech, Language, and Hearing Sciences, Purdue University
2010	Indiana Lion's Club McKinney Research Award
2011	Student Research Travel Award, American Speech-Language-Hearing Association
2011	New Century Doctoral Scholarship, American Speech-Language-Hearing Foundation
2013	Student Research Travel Award, American Speech-Language-Hearing Association
2014	Meritorious Poster Submission, American Speech-Language-Hearing Association Convention Poster Competition for "Characteristics of speech rate in children with cerebral palsy: A longitudinal study"
2014-2016	National Institutes of Health Extramural Loan Repayment Program Award for Clinical Research for "Respiratory contributions to speech intelligibility in children with cerebral palsy"

2018

Distinguished Young Alumni Award, Purdue University College of Health and Human Services, Department of Speech, Language, and Hearing Sciences

### **AWARDED GRANTS AND CONTRACTS**

F31DC012233, 1/1/12-3/31/14

National Institutes of Health (NIH), NIDCD

Role: PI

“Enhancing speech naturalness using respiratory treatment in Parkinson’s disease”

Brief Description: This project had three specific aims: 1) Assess the effectiveness of Expiratory Muscle Strength Training (EMST) for improving global measures of communicative effectiveness in individuals with Parkinson’s disease, 2) Identify the underlying physiologic changes to respiratory support for speech as a result of EMST, and 3) Identify the underlying speech characteristics that are altered in response to EMST and that contribute to changes in speech naturalness.

R03DC015607, 8/1/16-8/1/21

National Institutes of Health (NIH), NIDCD

Direct Costs: \$300,000

Role: PI

Percent Effort: 25% during the academic year; 100% during the summer

“Respiratory function during speech production in children with cerebral palsy”

Brief Description: The expected outcomes of this project will provide: 1) quantifiable characterization of respiratory function during speech production in children with cerebral palsy and 2) phase I evidence regarding the effectiveness of two commonly utilized intervention techniques (loud and clear speech) for children with cerebral palsy.

### **GRANTS UNDER REVIEW**

R01, Projected dates 7/1/23 – 6/30/28

National Institutes of Health (NIH), NICHD

Projected Direct Costs: \$2,515,658

Role: PI

“A biopsychosocial approach to the deep phenotyping of communicative participation in adolescents with Down syndrome”

Brief Description: This project has three specific aims: 1) Construct impairment-level speech production profiles for adolescents with Down syndrome, 2) Investigate how personal perspectives and communication environment alter communicative participation for adolescents with Down syndrome, and 3) Develop a mechanistic model of communicative participation for adolescents with Down syndrome.
